Project Title: Julia Child Website

I'd like to build this site as multiple pages, rather than a long, single page website. Interested to explore site navigation through scrolling. There is plenty of content and photography to build out individual pages.

- **Home Page/Introduction** – Introduce basic point I want to get across about Julia Child's life and role in American Cuisine. Set the tone for her personality and media exposure.
- **Childhood and Education/World War II/Post War France**
- **Media Career**
- **Legacy/Impact on American Households**
- **Awards/Works/Books**
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
